George John Alexander, M.D., F.A.C.S.

Board-Certified Plastic and Cosmetic Surgeon

3150 N. Tenaya Way, Suite 620, Las Vegas, Nevada • 702.242.6776 • www.alexandermd.com

Dr. Alexander, a board-certified plastic and cosmetic surgeon, utilizes the latest technology and highly trained staff to provide attractive remedies designed to keep patients looking and functioning at their very best.

Graduating at the top of his Georgetown University School of Medicine class he has since accumulated impressive professional credentials: Founding Chief of Plastic Surgery at the Mike O'Callaghan Federal Hospital, Chief of Plastic Surgery at Mountain View Hospital, and recipient of two Surgeon General awards in his field.

Patients are confident that Dr. Alexander prepared for his specialty with extensive training, including five years of internship and residency

in general surgery followed by three years as a resident in plastic and reconstructive surgery. His expertise now includes plastic surgical care of the breast, face and body, as well as the use of botox and collagen injections and treatment with endoscopic and laser techniques.

Procedures are performed in state-of-the-art facilities, either hospital or same-day surgical facilities, using board-certified anesthesiologists for major procedures, and after-care may include an elegant "hideaway" recovery hospital.

His website, www.alexandermd.com, provides more information about the quality-focused staff, the array of available treatments, and patient testimonials.
